The Protectu Check System

THE PROTECTU Check System is a system of check protection without machines. ¶ It is a simple, efficient method of giving you adequate protection against the depredations of the professional or amateur check raiser. ¶ Everyone recognizes the necessity for check protection, as is evidenced by the fact that over 500,000 check-protection machines of various types are in use in this country today.

¶ We have a descriptive booklet which shows, as clearly and comprehensively as possible, (1) why the common systems of "machine-made" check protections are in many cases inadequate, (2) why the Protectu System is the better system, and (3) why it will pay every bank to put the Protectu System within reach of its depositors.

¶ Shall we send you the booklet, or would you prefer to have our representative call and explain the system?

¶ The work of the school ranks with that of the leading academic art schools of Europe and America. Artists who have received their instruction in this school are occupying prominent positions throughout the country as painters, illustrators, designers, teachers, commercial illustrators and cartoonists.

¶ The studios and galleries—eight in number—are correctly lighted, having been designed for their present use. Few studios are so sanitary, comfortable and well equipped for practical work.

¶ The first year's work has been so designed as to make a complete short course. The thirty-four weeks of studio work in free hand drawing, painting, design, lettering, perspective, construction drawing and illustrative composition are so divided as to give the very best results, as well as to make a perfect foundation for advanced art study. - - - - -

PRINTING WORTH WHILE!

— TYLISH and attractive printing costs very little more than the common garden variety, but it marks the user as one who gives his business careful attention—a man it would probably be safe to deal with.

This kind of printing can be only done by printers who take pride in their work--life is too short to spend on others.

We are particular about keeping our promises. We would rather make good than make excuses. Delays are not permitted.

We know you will appreciate our kind of service and we are anxious to prove to you that it is a living thing every day of the year.
